

Receptor

Getting Started

1. Download the Inspector app (for free) from the App Store (for iOS devices) or Google Play Store (for Android Devices).

2. Go to your device settings and ensure Bluetooth is enabled.

3. Start the Receptor by shaking it.

The LED on the Receptor will blink blue rapidly. This means the Receptor is broadcasting and ready to pair with your device.

4. Open the Inspector App

A pop up window stating that “Rcptr” would like to pair with your phone will appear. Press Pair. The LED blink will slow once connected.

5. Create your Inspector account.

Account creation is used for saving your custom inspection reports. If you have already created an Inspector account, log in using your credentials.
